- **Branch & Section:** [Enter Branch & Section]

## Selected Case Studies
1. **Case Study 10:** Real Estate Property Listing Website
2. **Case Study 18:** Hotel Reservation Website Interface
3. **Case Study 19:** Adventure and Trekking Website
```

Case Study #10: Real Estate Property Listing Website

1. Problem Statement & Objective: Build a property website featuring houses, apartments, rental properties, prices, locations, amenities, and property details using structured cards, comparison tables, and a search-filter interface.

2. Key Features Implemented: Multi-criteria filter bar, responsive property cards (Villas, Apartments, Rentals), comparison table, and site visit booking form.

3. Webpage Output Screenshots:

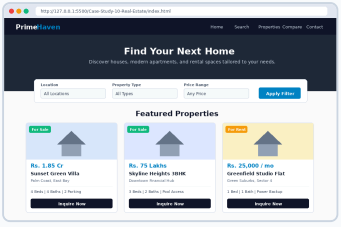

Figure 10.1: Navigation, Hero & Property Cards

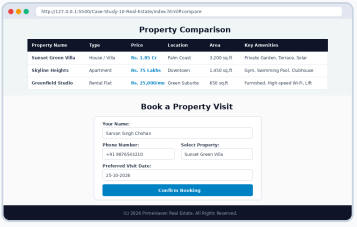

Figure 10.2: Comparison Matrix & Visit Booking Form

4. Source Code Snippets:

```
<!DOCTYPE html><html lang="en"><head><title>PrimeHaven Real Estate</title><link rel="stylesheet" href="style.
<body><header class="navbar"><div class="logo">Prime<span>Haven</span></div><nav><a href="#home">Home</a><a h
<section id="home" class="hero"><h1>Find Your Next Home</h1><p>Discover houses, apartments, and rental spaces
<section id="properties" class="container"><h2 class="title">Featured Properties</h2><div class="cards-grid">
<div class="card"><span class="tag sale">For Sale</span><img src="..." alt="Villa"><div class="card-content">
```

Case Study #18: Hotel Reservation Website Interface

1. Problem Statement & Objective: Design a hotel website containing room categories, room images, facilities, tariffs, check-in and check-out fields, and reservation forms.

2. Key Features Implemented: Room category cards with nightly tariffs, hotel facilities grid, and responsive reservation form with date pickers.

3. Webpage Output Screenshots:

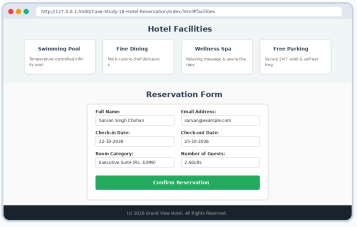

Figure 18.2: Facilities & Reservation Form

4. Source Code Snippets:

```
<!DOCTYPE html><html lang="en"><head><title>Grand View Hotel</title><link rel="stylesheet" href="style.css"><
<body><header class="navbar"><div class="logo">Grand View Hotel</div><nav><a href="#home">Home</a><a href="#r
<section id="rooms" class="section"><h2 class="section-title">Our Rooms & Suites</h2><div class="room-grid">
<div class="room-card"><img src="..."><div class="room-info"><h3>Executive Suite</h3><p class="tariff">&#8377
```

Case Study #19: Adventure and Trekking Website

1. Problem Statement & Objective: Build a website showcasing trekking routes, camping trips, difficulty levels, trip schedules, equipment checklists, safety guidelines, and package prices.

2. Key Features Implemented: Dark overlay hero banner, trek cards with difficulty level badges, side-by-side equipment & safety panels, and expedition booking form.

3. Webpage Output Screenshots:
